

ART & DESIGN

INTENT – Luddenden CE School is committed to providing an environment which embraces individuality, innovation and creativity. Our Art Curriculum aims to ensure all pupils have opportunities to produce creative, imaginative work. Children will explore their own ideas as well as exploring the work of others and evaluate different creative ideas. Children will become confident and proficient in a variety of techniques including drawing, painting, sculpting, as well as other selected craft skills, e.g. collage & printing. Children will also develop their knowledge of famous artists, designers and craft makers. We will draw upon our rich local heritage to further inspire our school community. Our core values in Art are honesty, love, openness and belonging.

IMPLEMENTATION – The [Kapow Art](#) scheme of work will form the core Art curriculum. Children will study 5 themes every year (drawing, collage, painting, artist study and exploring their own ideas) and a further 4 themes (printing, textiles, sculpture & digital art) throughout each 2 year period – KS1, LKS2, UKS2.

IMPACT: Children become more confident in analysing their work and giving their opinion on their own and other works of art. Children show competences in improving their resilience and perseverance by continually evaluating and improving their work. Children develop fine motor skills impacting positively on muscle development and coordination. Children will be able to use and enjoy art as a means of self-expression and exploration.
